Several of the courses above have required labs with a separate course number. For example, the lab PHYS 2125 is a co-requisite for PHYS 2325. Students will be required to repeat pre-requisite courses when the grade is below a C. A minimum of 42 semester hours of work must be completed at SFA, of which at least 36 hours must be advanced. A maximum of 66 academic hours plus 4 hours of kinesiology activity from junior/community colleges may apply towards a bachelor's degree. Students can make up for the difference in the number of hours by taking independent study courses at SFA. Contact your SFA advisor for alternative courses to the core courses listed.

- * There are several ways to meet the pre-requisite requirements for Calculus I:
- Take Pre-Calculus A & B during 1 or 2 semesters depending on ACT or SAT scores. (MATH 2211 & 2212)
 - Take Algebra, Trigonometry, and Analytical Geometry. (MATH 1314,1316,1318)
 - Received AP credit or take a CLEP exam in the SFA Testing Services center.

Students that are qualified to take calculus their first semester at SFA can choose to replace MATH 2211, MATH 2212, and PHYS 1308 with other courses to bring the degree total to 120 credit hours. Students are encouraged to take math and chemistry courses during the summer to reduce fall and spring semester loads and to decrease the time required for a degree.

** Students may substitute PHYS 4441 Optics for PHY 4331 Quantum Mechanics. PHY 4441 is normally offer during spring semesters.

- (1) Options include ARTS 1301, 1303, 1304; MUSI 1306; DRAM 1310; MUMH 1307; DANC 2303
- (2) Options include ENGL 2309,2322-2341; HIST 2311-2322; PHIL 1301,2306
- (3) Options include ECON 2301,2302; GEOG 1303; PSYC 2301; SOCI 1301; ANTH 2351
- (4) Options include SPCH 1315, SPCH 1318, or SPCH 2333
- (5) Options include ENGL 2311; BUSI 2304; SPAN 1301,1302; FREN 1301,1302; GERM 1301,1302; PORT 1301,1302; SNGL 1301,2302
